

Dear International Archers and Coaches,

USA Archery and the Easton Archery Center of Excellence (EACE) invite you to attend USA Archery's International Camp and Tournament, February 10-18, 2020. At this camp, you will have the opportunity to get a head start on outdoor training and competition for the 2020 season. Our state-of-the-art center is located within the Chula Vista Elite Athlete Training Center (formerly the U.S. Olympic Training Center) and boasts some of the best training conditions in the world.

This camp will focus on preparing athletes for the 2020 Pan Am Championships (Monterrey, MX), the Hyundai Archery World Cup season and the Tokyo Olympics. The International Camp and Tournament will offer individual and team training exercises that are challenging and effective in replicating international tournament situations. There will also be scheduled individual training time with all the EACE's amenities available for use. For example, the High-Speed Camera System can be reserved to assist athletes with equipment tuning or technique review.

The EACE is located 30 minutes south of San Diego International Airport. Our center's amenities include a 70m indoor range, 70m outdoor range, equipment workshop, weight training facility, bow storage/locker rooms and meeting and conference rooms. Onsite housing, which includes meals may also be available for teams wishing to stay on campus.

Following the International Camp, there will be a World Archery STAR FITA registered tournament consisting of a 72-arrow ranking round, and individual and team elimination rounds.

To RSVP for the International Camp and Tournament, or for more information, email USA Archery High Performance Manager, Leticia Malavasi, at lmalavasi@usarchery.org **by October 10th, 2019**. Please note this camp is immediately following the Vegas Shoot in Las Vegas, Nevada. Additional information and instructions regarding registration and payment will be sent upon receipt of RSVPs.

Complete registration and full payment must be received by December 10, 2019. Please see attached schedule, information and pricing for more information.

Please let us know if you have any questions. We look forward on having you all here for this camp.

Best Regards,

Leticia

TENTATIVE SCHEDULE (subject to change)

Departures and Open Practice

EACE AMENITIES AVAILABLE

Indoor Range:

The EACE's indoor range holds 12 Rinehart Wave targets moveable to any desired distance up to 70m. Amenities include air conditioning, timing system and blank bale targets. Coaches have plenty of room to watch their archers and can get an overhead view from the second floor viewing balcony.

Outdoor Range:

The outdoor range holds 34 Rinehart Wave targets moveable up to 90m. Archers have the option to shoot under the shade of the EACE's 2nd floor outdoor viewing balcony. The outdoor range is directly in front of the EACE so athletes have access to bathrooms, locker rooms and a three-minute walk to onsite housing.

Equipment Work Shop:

The equipment workshop has everything an archer needs to maintain their equipment while training at the EACE. Standard equipment includes an arrow saw, torch and glue, a string jig and a string stretcher. Other equipment tools are a 64,000 frame per second high-speed camera set up, delayed video feedback, projected video feedback and 3D motion capture system. The equipment workshop also contains a blank bale target.

Weight room:

Archers may access the weight room at the EACE to maintain their strength and conditioning routine. Equipment includes stationary bikes, free weights, a squat rack, three benches, medicine balls and a punching bag. Lockers and a locker room with shower are also available for use.

Conference and meeting rooms:

The EACE holds three conference and meeting rooms that can be used by coaches and archers for meetings. All conference rooms contain a TV and chairs. These rooms can be reserved or requested as necessary.

The EACEs state of the art equipment workshop and high-speed camera system

Archers can shoot any time at the EACEs 70m indoor range
